1. Because of the sensitivity of satellite reconnaissance activities, it is considered essential that the information contained herein and relating to Project CORONA be submitted apart from the above referenced summary of CIA reconnaissance operations and be given special handling.

2. In this regard, it is hoped that in any Situation Room presentation or graphic portrayal of reconnaissance activities that Project CORONA will be given special consideration and all necessary measures be taken to preclude inadvertent disclosure to unauthorized personnel who may be fully cleared only for the more conventional types of aerial reconnaissance.
